

Elf Frank Myrrh: Greetings from the North Pole News Desk, I'm Elf Frank Myrrh of North Pole Radio News. After a week of increasing the teams of reindeer dedicated to Operation Air Lift at the North Pole Santa is now asking for an increase in tracker elves. Here to discuss that from flight command is the International Director of Santa Trackers, Elf Crash Murphy. Crash, did this request from Santa surprise you?

Elf Crash Murphy: No, Santa and I have been discussing it for several weeks.

Elf Frank: Isn't it a little late in the season to be training new trackers?

Elf Crash: No, but it's true anyone starting right now will have to learn quick. We track Santa differently at the North Pole and it takes some work and dedication. Any elf job is like that, Frank.

Elf Frank: How will adding 5 million new tracker elves help on Christmas Eve?

Elf Crash: It's very difficult to directly answer that, Frank. Due to the crisis in Santa's workshop we're not sure what his flight will exactly be like this year. But that's the reason he wants 5 million more elves, Frank. To help him in whatever way is necessary on Christmas Eve to get around the world safely and on time.

Elf Frank: Okay, Crash. What an interesting year we're having already in tracking Santa. For North Pole Radio News, where we are ready for anything to happen during Santa's flight this year, I'm Elf Frank Myrrh reporting for SantaUpdate.com on the Kringle Radio Network.
