

Huge Sleigh Order

Elf Frank Myrrh: Hello again from the North Pole News Desk, I'm Elf Frank Myrrh of North Pole Radio News. Santa Claus dropped a bombshell news story at North Pole Flight Command with a massive order of a mysterious new sleigh. The order for 3500 news sleighs to be put into immediate use by the Distribution Department for Operation Airlift on Christmas Eve is getting a massive reaction at nearly every North Pole department today. Joining us from his office at North Pole Flight Command is International Director of Santa Trackers, Elf Crash Murphy. Crash, will this new order affect your department, too?

Elf Crash Murphy: Of course it will, Frank. That's 3500 more sleighs in the skies on Christmas Eve than there was yesterday. It changes everything for us, and I think the reaction we're hearing about from nearly everyone at the North Pole today is completely justified.

Elf Frank: What is Santa doing? This sleigh is classified and few know anything about it, which could be adding to the big reaction we're seeing today.

Elf Crash: It's model #HS-STST26, and you're right the details on this are pretty scarce, Frank. HS has to stand for High Speed. And STST has always stood for sleigh-to-sleigh transfer. So, reading between the lines and not claiming this is accurate or even true, it looks like Santa's process change includes a new way to transfer stuff between sleighs. Now, having followed Santa on Christmas Eve for years I can tell you that the sleigh to sleigh process has been impressive already. But if there is a new process, something even faster, that Santa has come up with, it could make this Christmas Eve very exciting, Frank.

Elf Frank: When will we know, Crash?

Elf Crash: Well, Santa has called for a big logistics conference. That news came out late last week at Flight Command. I suspect we might learn more than.

Elf Frank: Ok, Crash. Please stay on this story. Folks, you're likely to hear of a hiring boom at the North Pole very soon. That much we can anticipate. But what this means for how Santa delivers, and how we all report it, remains to be seen. From the North Pole news desk, I'm Elf Frank Myrrh reporting for SantaUpdate.com on the Kringle Radio Network.
